

## Selling waffles at school

The idea behind this activity was to raise some money for the school library. So we took the opportunity during the LTTA in Germany and planned a waffle sale during one of the breaks at school.

Students brought waffle dough from home or made it at school and borrowed their mothers' waffle iron to bake the waffles. It was a great success

and we earned almost 70,00 Euros.

In general this activity is easy to handle, you can change the products to be sold and it is always very motivating for the students. We decided to do it again during the next LTTA and then more or less regularly, perhaps two or three times a year. We will try to keep the frequency

low because otherwise the special effect will dwindle away. This time we used it for our own school, next time the money might go to charity.
