

## Sportactivities

In June 2015 our students attended in a town activity called Challenge day. This is traditional event in Senica and many towns in Slovakia. It is a big sport day for people. Many sport centres are free this day. People can do sport for free all day. Our students could choose from traditional and untraditional sports, such as hockey, badminton, rugby, skateboarding, baseball, aerobic, yoga, etc.

In December we organized a school floorball competition. From Monday to Friday students played from each class 3 or 4 matches. It was exhausted, but everybody enjoyed it. In our school is this sport very popular. Floorball is a type of floor hockey with five field players and a goalkeeper on each team. Players play indoors with sticks and a plastic ball with holes. Matches are played in

three twenty-minute periods.

In January have started with a new sport activity. In our school we have 20 minutes long break. Some students have lunch, but for other students it is a long time to do nothing. We decided to buy a table tennis equipments and students can play table tennis. From the beginning it is very popular and useful.
