

Voluntary activities

Voluntary activities play an important role in Slovakia. Many people worked after World War II as volunteers to build new buildings and help to our economy. Nowadays many people don't work as volunteers. Very popular is a donation for different organisations and events.

Volunteering is strongly influenced by the history, politics and culture of a community and a country and older people remember that time. This is the reason, why we decided to revival this tradition with our students.

In our school there is a tradition in voluntary activities. The main target is safe our environment.

Every year we collect used paper, batteries, plastic tops or harvest of chestnuts. The chestnuts are used by hunters to feed wild animals during winter. Other used things are recycled. Plastic tops takes a company which help handicapped children.

Why is important to collect old batteries?

One of the biggest problems is how to safe our enviroment and diversity.

The production of lead's accumultaors takes more than 80% of world consumption of lead's productions. This is why are baterries so dangerous.

Batteries contain a number of heavy metal and toxic chemicals
There are very dangerous and toxic for our health.

Collection of plastic tops

- for handicapped children
- plastic tops takes a company for recyclation
- when you collect 10 tons, they pay two weeks staying in a special place for handicapped children

Every year before Christmas we also help a dog pound in Senica. We collect dog food, blankets, toys, cleaning liquids, etc.

New voluntary activity was during a Week of voluntary activities in Senica. This activity is organised by Europe direct. This year from 14 to 18 September our students helped to organize activities for younger children.

Other students help in our School club every day after their lessons. They help to teachers with young students. They do homework with them, play games or read them. They prepared with teachers also special activities such as decoration of Christmas tree, Carnival, etc.

We hope this is the new chance to come back

of voluntary activities in our school, country and in Europe as well.
